

SYBRIN  
**ACADEMY**

## **Sybrin Enterprise Studio Training**

4-Day Course

## Overview

This course will enable your team to use the Sybrin Enterprise Studio to build, create, and/or configure solutions including Case Management (BPM) solutions, Document Management solutions, Payment Processing solutions, Central Bank Clearing solutions, Front Office solutions, and Corporate Portals.

It also provides practical exercises that train users to create, customise, and deliver automated processes within Sybrin Enterprise Studio. This enables users to make use of the vast selection of functionalities and features available.
